3.	Comment: The 2008, Revsion 14 of the RCRA Part A Permit for the Low Level Burial Grounds states The greater-than-90-day container storage capability in mixed waste Trenches 31 and 34 of the 218-W-5 Burial Ground provides a location to store various sized containers of mixed waste in a RCRA compliant manner other than the Central Waste Complex. A new WIDS waste Site (200-W-254) has been created to represent the two active, RCRA storage trenches (#31 and #34). The 218-W-5 WIDS site will represent the inactive portions of the burial ground.						
4.	Is the site a Solid Waste Management Unit? Any discernible location at the Facility where solid wastes have been placed at any time, irrespective of whether the location was intended for the management of solid or dangerous waste, and includes any area at the Facility at which solid wastes have been routinely and systematically released (for example						
	through spills), and includes dangerous waste treatment, storage, and disposal units. Does the site need to be addressed under a regulatory program? Check first item that applies.
